PROFESSIONAL SUMMARY

Computer Science and Engineering (AI) student pursuing a B.Tech degree (expected 2027), with hands-on full stack development experience in Java, Spring Boot, Spring MVC, Hibernate, REST APIs, React.js, and MySQL. Built web applications involving backend CRUD operations, database integration, and responsive user interfaces. Familiar with object-oriented programming, data structures, and database design. Seeking a Software Engineer Intern role to contribute to software development projects and continue growing as a developer.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL
Frontend: React.js, HTML5, CSS3, React Hooks, Responsive Web Design
Backend & Frameworks: Spring Boot, Spring Core, Spring MVC, Spring ORM, Hibernate, Java Servlets, JSP, JDBC
API Development: REST API Development, CRUD Operations, API Integration
Database: MySQL, Database Design
Core Concepts: Object-Oriented Programming, Data Structures, DBMS, Problem Solving
Tools & Workflow: Git, GitHub, VS Code, Eclipse, MySQL Workbench, Postman, Vite

PROJECTS

Book Management CRUD Application | Spring Boot, Java, React.js, MySQL, REST APIs
- Developed a full stack book management application with a Spring Boot backend and React frontend.
- Implemented REST API endpoints to create, retrieve, update, and delete book records.
- Connected the application to a MySQL database to persist book details such as name, author, and price.
- Used frontend service methods to communicate with backend APIs and manage book data.

Food Delivery Web Application — Full Stack | Java, Servlets, JSP, JDBC, MySQL, HTML, CSS, JavaScript
- Designed and built a full stack food delivery web application, integrating frontend, backend, and MySQL database layers.
- Implemented user authentication, restaurant browsing, menu management, shopping cart, and order placement workflows.
- Applied object-oriented programming principles and JDBC for modular code and reliable database communication.

Netflix Clone (React.js) | React.js, JavaScript, HTML, CSS, REST APIs — Live: netflix-clone-re1v.vercel.app
- Built a responsive Netflix-inspired web application using React.js and component-based architecture.
- Integrated REST APIs to fetch and dynamically render movie data; developed reusable components using React Hooks.
- Optimized layouts for desktop and mobile devices.

Tech Store Website (React.js) | React.js, JavaScript, HTML, CSS — Live: tap-project-two.vercel.app
- Built a responsive e-commerce frontend for browsing technology products by category.
- Developed reusable product card components and category-based listing views.

EDUCATION

B.Tech, Computer Science and Engineering (Artificial Intelligence) — Expected 2027 — **CGPA:** 7.25/10.0 (through 3rd year)
CBIT College (JNTUA Affiliated), Andhra Pradesh

Diploma in Electronics and Communication Engineering (ECE) — 2024 — **84.14%**
CBIT College, Andhra Pradesh — SBTET, Andhra Pradesh

SSC (10th Class) — 2021 — **10/10 GPA**
Vasavi High School, Mydukur — Board of Secondary Education

CERTIFICATIONS

• Java Programming • React.js Development • SQL & Database Management

CORE STRENGTHS

Problem Solving & Analytical Thinking | Object-Oriented Programming (OOP) & Data Structures
Backend Development & REST API Development | Database Design & Management
Full Stack Application Development | Quick Learner & Adaptable to New Technologies
Languages: English, Telugu
